

would kind of walk away, let me get up, and I would try to escape; then, he would grab me again, throw me to the floor and punch and kick me. At one point, he turned on the hot water in the kitchen sink and sprayed me with scalding hot water. At another point, he held me down and strangled me until I felt I was losing consciousness and, believe, that I probably did.

At another point, he took a plastic bottle containing Cinnamon Fireball Whiskey and shoved it in my mouth, squeezed it and forced alcohol down my throat. As a result, I choked and vomited. Afterwards, he "waterboarded" me with bottles of water; he poured water in my mouth and nose to the point I could not breath. During this, he also threw eggs at my head which caused painful bumps on my head.

He pulled out a pellet gun and pointed it at me. I don't know if the bullet missed me, the gun misfired or if it wasn't loaded; I wasn't struck by anything, however.

J also pulled out a knife in a threatening manner.

After about three hours had passed, I was able to get off the kitchen floor, run to an exterior door, unlock the dead bolt and escape outside. I was completely naked. I ran down the back stairs, jumped off a retaining wall and ran northward down the road. I ran to a house with lights on. I tried to contact someone inside but no one was home. I could hear John looking for and calling me. It was very cold outside and I was freezing. For an instant, I thought about going back but knew if I did I would be killed. Afterwards, I ran down the street. I stopped at two more homes but no one was there. I continued down the street until I heard what I thought was John driving around looking for me. I stopped and hid for 15 minutes or so. After I thought he was gone, I ran to the World Mark Bear Lake Resort at ~~845 North Valley Drive~~ and entered the office area. There, I was met by an office worker who gave me a blanket to cover myself.

I was taken to the hospital where I was treated for frostbite and other conditions.
